Limpid

FIRE RESPONSE

FT-01

Analog Firefighters’ Telephone

Wall-mounted analog telephone

AUTOMATIC CALL TO THE CONTROL CENTER

Lifting the handset automatically calls the control center.

No dialing required.

Limpid FT-01 is a wall-mounted analog telephone designed to connect firefighting teams to the control center from fixed communication points within a building.

The red handset is housed in a RAL 3020 traffic red metal enclosure. The front door has a key-operated lock and a clear window that keeps the handset visible when the door is closed. Turkish, English and Russian wording on the window identifies the telephone’s intended use.
